

# Holophane Outdoor Paint Guide

## Standard Colors

Durable powder coat finishes from Holophane utilize polyester-based compounds combining the flexibility, impact resistance and corrosion protection of epoxies with the weather resiliency normally associated with brittle acrylics. The eight colors shown here are standard color options with custom colors available upon request.

## Custom Colors

Holophane can match any custom color to a sample paint chip. A sample of the custom-blended finish will be provided by Holophane for final approval. Lead times for these colors will be extended due to the custom match and approval process.

## Touch-up Paints

To ensure your Holophane poles and luminaires maintain the same factory gloss and durability over their lifetime, we now offer touch-up paint. We have worked with our supply to offer the exact same paint color, finish and durability that is used in our factories. For custom paints that have RALxxxxSDCR or other Vitraccoat supplied paint, contact your Holophane rep.
