

LIGHTING SOLUTIONS FOR PARKS AND RECREATION APPLICATIONS

EXCEPTIONAL PRODUCTS, SERVICES, AND TECHNOLOGY TO HELP DIFFERENTIATE YOUR PARKS AND RECREATIONAL AREAS

Lighting applications in parks and recreational areas require luminaires designed to provide improved visibility, safety and security. In outdoor spaces, these luminaires must enable a cohesive aesthetic that matches the application. Combine with controls to achieve reduced energy consumption and optimized maintenance in a complete lighting package.

FIND RECOMMENDED LIGHTING SOLUTIONS FOR PARK AND RECREATION APPLICATIONS

Lighting and controls solutions tailored to your facility, combined with the information you need to complete your project. Get spec sheets, BIM and IES files, utility rebate calculations and more.
